

Meaningful and Measurable Research Progress (M²RP)

Research Consultancy for Dental and Medical Schools

Predictably enhance your **NAAC, NIRF** rankings through
enhanced research funding

Meaningful and Measurable Research Progress (M²RP)

Plan Type - Basic - Medical

Ignobilis
Terrain

Ignite & Illuminate

Prologue

Research at an institutional level is measurable. The quality of research among the clinicians can be enhanced with the right people, right mentoring, and right monitoring. We at Ignobilis Terrain LLP, master this process. We can boast that we have mentors on board with more than three decades of cumulative research experience. The key is the identification of the right resources and nurturing them positively over a period of time. Generally this process can be done at an institutional level in a period of 10-18 months.

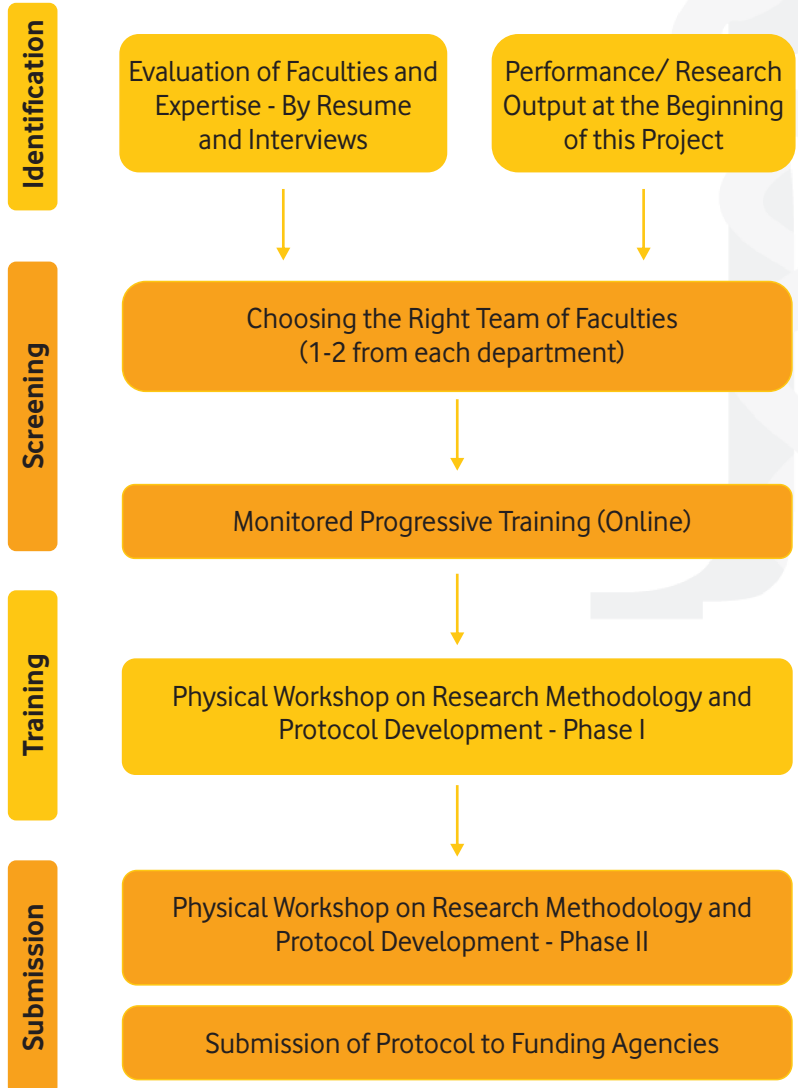

The Deliverables

- By the end of this M²RP program, the institution would have submitted projects to various **external funding agencies** in the range of **4-5 crores** through their own faculties.
- By the end of this M²RP Project, the institution would have created a pool of **15-25 well trained researchers (1-2 researchers from each department)** who can spearhead research for the institution in the future.
- By the end of this project, **1-3 collaborative (either national or international)** projects would have been submitted for funding.
- First steps to establish **Centres of Excellence** within the institution.

Requirement from the Institution

- Committed and Organized - M²RP project co-ordinator who will report the progress of the program directly to the Dean.
- Preferably with secretarial assistance.
- Monitoring enrolled faculties - Online training progress through the M²RP project co-ordinator.
- Reviewing the monthly report from the co-ordinator of Ignobilis Terrain LLP and addressing the concerns.

The Progress

M²RP Program

Research is all about asking questions. The ability which has been lost systematically over prolonged periods of conventional methods of education. It is important to regain this ability. The Whys, Whats, and the Hows etc. M²RP program will ensure this ability is re-gained to a group of committed faculties.
